

MEDIA RELEASE

The following statement was sent to the founding groups/clubs of the proposed climbing federation currently working under the title Mountain Activities Victoria on 2 July 2019:

The ACAV interim committee warmly supports the concept of a peak governing body for climbing and mountaineering activities in Victoria. As an access organisation, our legal constitution is tightly focused. Hence we cannot sign up to an agreement with a proposed governing body without reviewing the proposed constitution of that organisation. We are fully engaged in a major access issue at present and we wish you well in establishing Mountain Activities Victoria. We have recent experience in setting up a new incorporated association and we would be happy to assist.

Please contact acav@climb.org.au for any media enquiries.
